

Erasmus+

*Dilemmas and contradictions for the development of digital competence  
in educational institutions*

**Adriana Gewerc Barujel**

**CV**

**Adriana Gewerc Barujel** is a professor, graduated in Education from the National University of Cordoba, Argentina, and a doctor of education from the University of Santiago de Compostelz, where she currently works in teaching new technologies. applied to education. His professional and personal history is divided into two worlds: the beginnings in Córdoba-Argentina and his entry into a Spanish university. His research focuses on the integration of information and communication technologies and the meaning of education in this context. She is currently Director of the Stellae Research Group and has been involved in numerous national and international research projects.

**REPORT OF THE INTERVENTION**

**Adriana Gewerc Barujel** addressed the issue of skills and e-inclusion and the links between economic inequalities and the distribution of technologies around the world. She analyzed the skills acquired by students in their families and in class.
